Bootstrap	

03 EMPLOYMENT HISTORY

Apr 2022 — Present

Richmond, VA

UI Developer (Web Accessibility) at Capital One

- Testing and implementing strategies to make web content and applications compliant with WCAG 2.0 Level AA Standards
- Identify and suggest potential solutions to deliver accessible content on the web and mobile devices
- Provided effective troubleshooting and remediation for web applications.
- Planned, developed, tested, deployed, and maintained web applications.
- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.
- Successfully identified, diagnosed, and fixed website problems, including broken links, typographical errors, and formatting issues.
- Effectively translated client requirements into application designs and system requirements.
- Thorough working knowledge of applicable federal and state laws, policies, regulations, and standards (Americans with Disabilities Act Amendment and Section 504) Extensive knowledge of manual and automated quality assurance testing
- Utilized assistive technologies such as screen readers and close captioning
- Knowledge of principles, concepts, methods, and techniques of universal design standards

- Ability to utilize computer technology for communication, data gathering, and reporting activities

UI Engineer at Y Lift

Jul 2021 — Apr 2022

New York City

· Highly proficient with Vue.js framework and its core principles such as components, reactivity, and the virtual DOM

· Familiarity with the Vue.js ecosystem, including Vue CLI, Vuex, and Vue Router

· Responsible for developing ideas and concepts, visualizing app and website's UI specifications, wireframes and prototypes.

· High level of adaptability and flexibility gained through working in highly charged, fast paced environments.

· Independently create interaction designs for multiple projects each at different stages of design. Projects range from concepting a new ecommerce site, designing the interface for a mobile point-of-sale system, developing the UI for an internal web-based application.

· Redesigned and implemented complete web applications to meet web and industry standards.

· Leveraged expertise in user preferences and accessibility requirements to establish design specifications and optimize approaches.

· Improved and designed new layouts to achieve usability and performance objectives.

· Documented bug reports, tickets, and code changes into Asana.

· Monitored website performance to quickly rectify front-end-related issues.

· Designed wireframes and prototypes based on goals and needs for organization.

Applied jQuery scripts for basic animation and end-user screen customization purposes.

04 INTERNSHIPS

Full Stack Developer at Marmalade AI

Apr 2021 — Jul 2021

Remote

· Advised an Agile (Scrum) Development Team to deliver regular updates to team.

· Organized with UX/UI design teammates to improve the existing applications and increase conversion.

· Modernized from WordPress to Vue.js framework using its core principles such as components, reactivity, and the virtual DOM.

· Implemented stand-alone functions to be added to any future pages.

· Configured templating for faster compilation and developing reusable components.

· Utilized Web pack to execute linters, magnifiers, pre/post-processors, tests, transpires, etc.

· Implemented Cypress to create e2e and unit test for JavaScript code.

· Coordinated in complete SDLC - Requirement Analysis, Development, System and Integration Testing.

· Delegated cross browser/platform compatibility issues (IE, Firefox, and Safari).

· Launched fast dynamic web pages using HTML 5, JavaScript, Bootstrap, SASS, Vue.js, and Firebase.

· Instructed lessons on Functional and Technical Knowledge about basic Web Development and how track the status of the project.

· Conducted design mockups and prototypes for web application.

05 EDUCATION

Jun 2014 — Aug 2017
Bronx

Lehman College, CUNY
BA - Liberal Arts
