PROFILE

UI Developer passionate about creating and implementing user interactions that help make technology more efficient and accessible. Proficient in various platforms, languages, and embedded systems. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

EMPLOYMENT HISTORY

UI Engineer at Y Lift, New York City

July 2021 — Present

· Highly proficient with Vue.js framework and its core principles such as components, reactivity, and the virtual DOM

· Familiarity with the Vue.js ecosystem, including Vue CLI, Vuex, and Vue Router

· Responsible for developing ideas and concepts, visualizing app and website's UI specifications, wireframes and prototypes.

· High level of adaptability and flexibility gained through working in highly charged, fast paced environments.

· Independently create interaction designs for multiple projects each at different stages of design. Projects range from concepting a new ecommerce site, designing the interface for a mobile point-of-sale system, developing the UI for an internal web-based application.

· Redesigned and implemented complete web applications to meet web and industry standards.

· Leveraged expertise in user preferences and accessibility requirements to establish design specifications and optimize approaches.

· Improved and designed new layouts to achieve usability and performance objectives.

· Documented bug reports, tickets, and code changes into Asana.

· Monitored website performance to quickly rectify front-end-related issues.

· Designed wireframes and prototypes based on goals and needs for organization.

Applied jQuery scripts for basic animation and end-user screen customization purposes.

Makeup Artist at Freelance, New York City

May 2017 — February 2020

Applied makeup on clients to help them achieve the desired look.

· Handled basic administrative tasks, such as booking, cancelling, and rescheduling appointments.

· Provided makeup services to over 15 clients per month for weddings, proms, and other special events.

· Responded to customer inquiries by phone, email and in person.

· Customized styles, services, and products to suit client needs and maintain customer satisfaction.

· Maintained updated knowledge of industry products and chemical composition structure and properties.

INTERNSHIPS

Full Stack Developer at Marmalade AI, Remote
April 2021 — July 2021

· Advised an Agile (Scrum) Development Team to deliver regular updates to team.

· Organized with UX/UI design teammates to improve the existing applications and increase conversion.

· Modernized from WordPress to Vue.js framework using its core principles such as components, reactivity, and the virtual DOM.

· Implemented stand-alone functions to be added to any future pages.

· Configured templating for faster compilation and developing reusable components.

· Utilized Web pack to execute linters, magnifiers, pre/post-processors, tests, transpires, etc.

· Implemented Cypress to create e2e and unit test for JavaScript code.

· Coordinated in complete SDLC - Requirement Analysis, Development, System and Integration Testing.

· Delegated cross browser/platform compatibility issues (IE, Firefox, and Safari).

· Launched fast dynamic web pages using HTML 5, JavaScript, Bootstrap, SASS, Vue.js, and Firebase.

· Instructed lessons on Functional and Technical Knowledge about basic Web Development and how track the status of the project.

· Conducted design mockups and prototypes for web application.

EDUCATION

BA - Liberal Arts at Lehman College, CUNY, Bronx
June 2014 — August 2017
