

Kechi Boniface

Senior Accessibility Lead

New York, US, New Haven, CT • 3477403150 • bonifacekechi@gmail.com • LinkedIn: www.linkedin.com/in/kechi-boniface

Senior Accessibility Lead who reduced an enterprise backlog of 1,000+ inaccessible sites and documents by 90% while building education frameworks and personal trainings that translate WCAG 2.2 and Section 508 into practical guidance. Drives accessibility governance, training, remediation, and retention with prioritization to cut remediation time and rework. Seeks to scale sustainable accessibility practices across product and document teams.

Employment history

Senior Accessibility Expert/ Section508 Specialist

TalentBurst / [Mass.gov](https://www.mass.gov) - Quincy, MA (Remote) - Jul 2025 – Jul 2026

- Served as the enterprise accessibility lead across Product, UX, Engineering, QA, and business teams.
- Developed a human-centered accessibility education framework translating WCAG, Section 508, and the POUR principles into practical guidance.
- Reduced a backlog of 1,000+ inaccessible websites and documents by 90%.
- Designed enterprise accessibility training that achieved 90%+ knowledge retention and empowered teams to self-remediate. Guided accessibility governance, review sessions, remediation prioritization, and executive reporting.

Senior Digital Accessibility Specialist

Bank of America / Synechron - Piscataway, NJ (Remote) - Apr 2025 – Jul 2025

- Conducted comprehensive accessibility audits across enterprise digital products, evaluating compliance with WCAG 2.1/2.2, Section 508, and ADA requirements.
- Partnered with Product Owners, UX Designers, and Engineering teams to prioritize accessibility defects, contributing to a 30% reduction in remediation turnaround time through severity-based prioritization.
- Revalidated accessibility defects using manual keyboard testing, JAWS, NVDA, and VoiceOver, improving first-pass remediation success rates by 25%.
- Standardized accessibility review documentation, reducing implementation ambiguity and improving engineering efficiency during remediation efforts.
- Facilitated accessibility review sessions with stakeholders that improved remediation alignment and reduced accessibility-related release risks across multiple product teams

PDF Remediation & Training Specialist - US Department of Education/ RGMINC

Washington, DC (Remote) Jun 2023 – Apr 2025

- Remediated and validated thousands of Section 508-compliant PDF, Word, Excel, and PowerPoint documents supporting federal accessibility requirements.
- Designed accessibility reporting templates that reduced document revision cycles by 40% through clearer remediation guidance. Implemented a structured validation workflow using Acrobat Pro, CommonLook, JAWS, and NVDA, reducing recurring compliance issues by 25%.
- Developed document accessibility QA processes that decreased post-remediation rework by 30% by identifying structural issues earlier. Analyzed accessibility trends across large document collections, leading to template improvements that reduced future document accessibility defects by 20%.
- Delivered accessibility coaching and documentation guidance that improved document authoring quality across multiple federal departments.

Web/Mobile Accessibility Tester - Capital One/ DISYS - (Remote) Richmond, VA - Apr 2022 – Apr 2023

- Accessibility auditing, document remediation, assistive technology testing, stakeholder training, and SDLC accessibility integration. Conducted manual and automated accessibility audits across web applications, mobile applications, and digital documents using Axe, Siteimprove, JAWS, NVDA, VoiceOver, and Accessibility Insights.
- Partnered with Product Managers, Developers, Designers, and QA teams to integrate accessibility throughout Agile development, reducing accessibility defects identified during final validation by 30%.
- Produced accessibility readiness reports, conformance assessments, and executive dashboards supporting accessibility governance across multiple projects.
- Implemented pre-release accessibility testing workflows that reduced costly post-production accessibility defects by 30%. Established peer validation and defect tracking processes that reduced recurring accessibility issues by 25% while improving audit readiness. Helped refine accessibility standards using user feedback and assistive technology testing, contributing to measurable improvements in usability and compliance across enterprise applications.

UI Developer - Y Lift - Midtown, NY Jul 2020 – Apr 2022

- Developed accessible front-end interfaces using semantic HTML, CSS, and JavaScript while collaborating with

- UX Designers to improve usability.
- Integrated accessibility best practices into component development, reducing accessibility defects identified during QA by 20%. Improved keyboard accessibility, focus management, and semantic structure across multiple web interfaces.
- Partnered with designers to ensure accessible implementation aligned with design intent and WCAG success criteria, contributed to reusable UI patterns that improved consistency and reduced future accessibility implementation effort.

Education

Liberal Arts - CUNY Lehman Bronx Community College - New York City - May 2017

Diploma - York Early College Academy - New York City

Certifications

CPACC - IAAP (attached)

Trusted Tester - DHS (attached)
